PROFESSIONAL SUMMARY

Results-driven Fintech Operations Associate with 3+ years of experience in fraud/risk monitoring, customer onboarding, billing operations, and compliance. Currently managing SEON-based fraud detection and risk workflows at a US-based fintech firm, with hands-on expertise in ACH, wire transfer, and RTP transaction monitoring. Proven track record in subscription operations, retention handling, and CRM management using Zoho Suite. Night-shift ready with strong cross-functional collaboration skills with American clients. Fluent in English with a 99.9% data accuracy record.

WORK EXPERIENCE

Fintech Operations Associate (Night Shift) | ZilMoney powered by Tyler Petroleum | 2025 – Present

- **Fraud & Risk Monitoring:** Leverage SEON's device intelligence and behavioral analytics to identify, investigate, and escalate high-risk transactions across ACH, wire, RTP, and check payment rails, directly contributing to a 40% reduction in fraud incidents.
- **Check Mail Monitoring:** Oversee inbound check-related correspondence, validate transaction authenticity, reconcile discrepancies, and flag irregularities to the compliance team for swift resolution.
- **Subscription Operations:** Own end-to-end subscription lifecycle management — plan activations, upgrades, downgrades, renewals, and cancellations — maintaining billing accuracy and minimizing revenue leakage.
- **Billing Modifications:** Execute billing adjustments, credit memos, refunds, and fee corrections in Zoho Billing; ensure precise financial recordkeeping and seamless reconciliation across client accounts.
- **Customer Onboarding:** Lead structured onboarding for new clients, collecting and verifying KYC documentation, configuring accounts, and ensuring compliance sign-off before go-live.
- **Retention Handling:** Identify at-risk accounts through usage signals and support patterns; engage clients with personalized solutions, reducing churn and maintaining high customer satisfaction scores.
- **CRM Management:** Maintain up-to-date client profiles, interaction history, and task pipelines in Zoho CRM and SalesIQ, ensuring zero gaps in follow-through and full visibility for the team.
- **Compliance Support:** Collaborate with the compliance department to enforce AML, KYC, and internal control standards across all monitored transaction types and onboarding workflows.

Back Office Executive (Night Shift) | ZilMoney powered by Tyler Petroleum | 2025 – Present

- Delivered overnight operational support for a US fintech platform, processing transactions and coordinating with finance and compliance teams to maintain uninterrupted service across time zones.
- Managed multi-channel customer support (phone, chat, email) during US business hours, resolving account, billing, and transaction queries with a focus on first-contact resolution.
- Maintained comprehensive interaction logs in Zoho CRM and SalesIQ, enabling full audit trails and team-wide visibility into client issues and resolutions.

Personal Assistant | Sabeer Nelli – Forbes-Listed Entrepreneur | Feb 2025 – Mar 2025

- Managed complex executive schedules, coordinated high-priority meetings, and ensured seamless follow-ups for a Forbes-listed entrepreneur with multiple active business interests.
- Acted as a trusted liaison between the executive and key stakeholders including finance partners, business contacts, and internal teams, ensuring smooth information flow and timely decision-making.

Data Processing Executive | DataQuest | 2021 – 2023

- Processed and validated large volumes of financial and operational data with a 99.9% accuracy rate by implementing rigorous cross-referencing and error correction workflows.
- Managed structured data entry across multiple databases and spreadsheets, ensuring consistency, completeness, and compliance with client quality standards.
- Identified and resolved data discrepancies proactively, reducing downstream errors and improving overall dataset reliability for reporting and analysis.

KEY ACHIEVEMENTS

- Achieved 99.9% data accuracy rate across high-volume fintech data processing projects through rigorous cross-validation.
- Contributed to a 40% reduction in fraud incidents by actively monitoring and escalating transaction anomalies via SEON and internal risk protocols.
- Successfully onboarded multiple enterprise clients while ensuring full KYC and regulatory compliance from day one.
- Maintained consistent CSAT scores through effective night-shift customer resolution, minimizing escalations.
- Streamlined subscription and billing workflows resulting in faster processing and fewer reconciliation errors.
